Central Square Station Accessibility Improvements

Design Update
October 2023

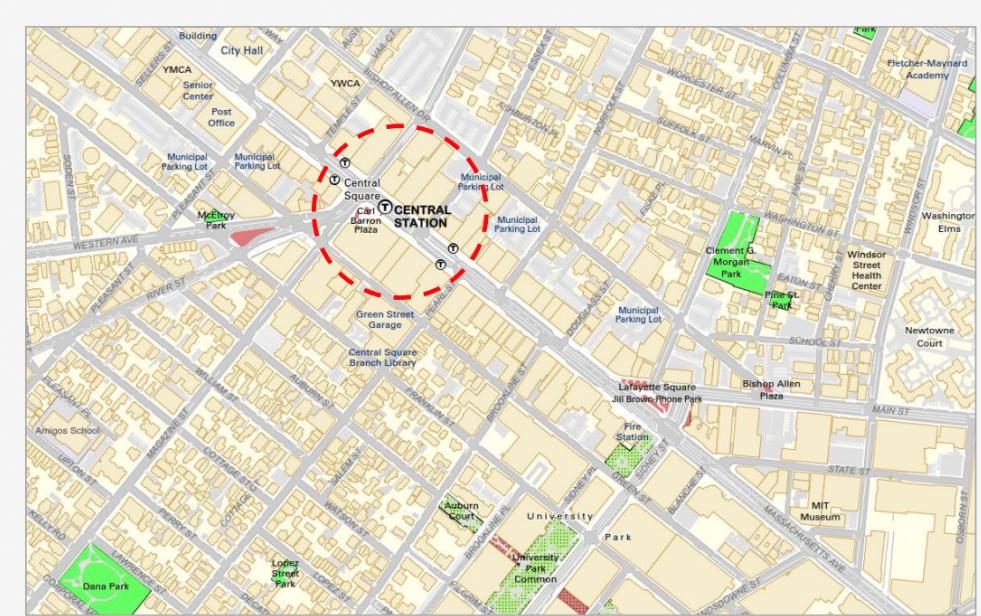

Agenda

- Project Overview
- Proposed Improvements
- Anticipated Construction Impacts
- Next Steps

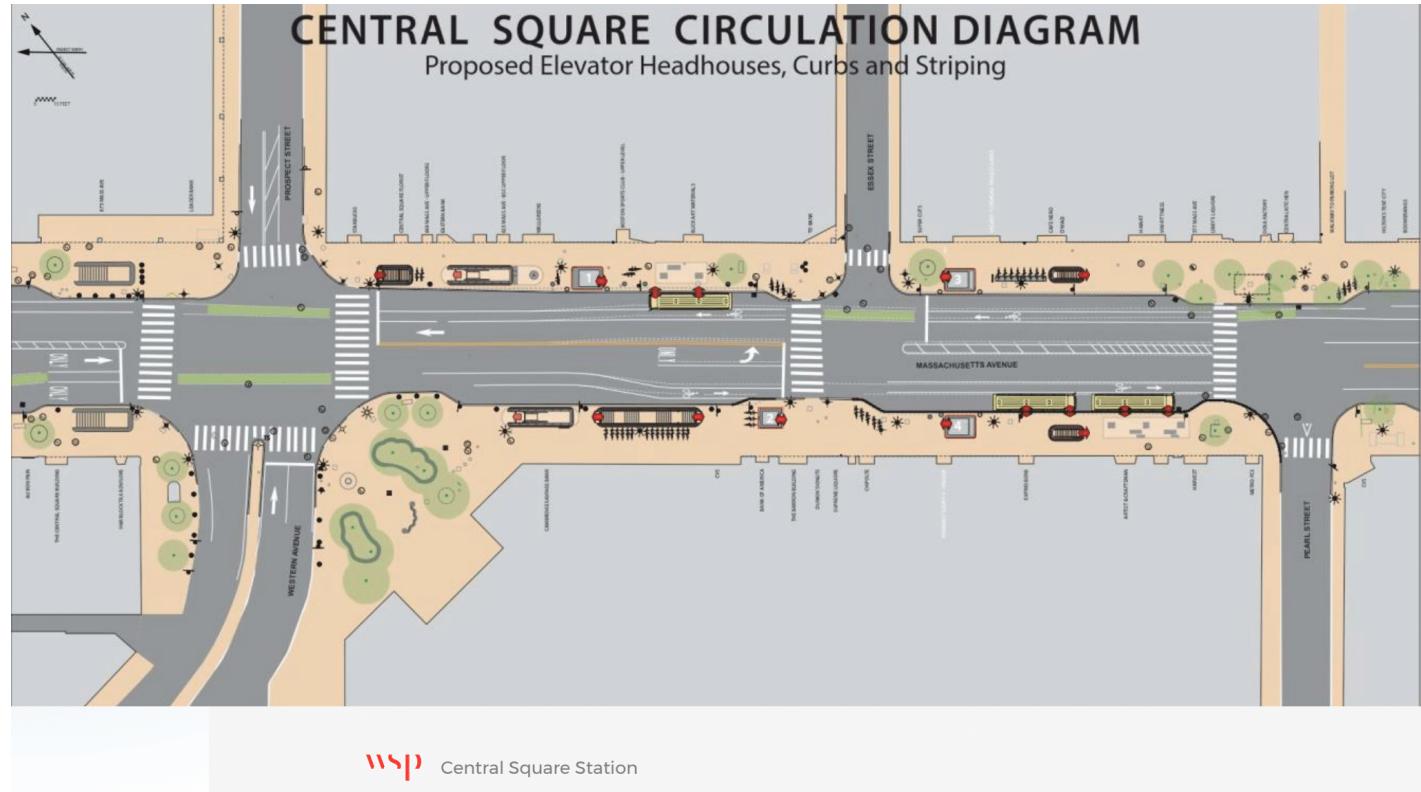

Project Overview

- Need for redundant elevators and accessibility improvements compliant with federal and state codes
- Additional improvements to the station
- Rider Benefits
 - Easier access to Red Line platforms
 - Additional station access points
 - More reliable elevator service
 - Improved rider experience and safety
 - Station modernization

Proposed Improvements

- Add 2 new elevators and elevator headhouses
 - Replace the existing elevator and its headhouse on the outbound platform
 - Modernize the inbound escalator
 - Other underground station improvements
 - Additional improvements to comply with current accessibility and building codes
 - Thorough station cleaning and painting
 - Replacement of interior lighting and additional lighting
 - A new fire and smoke-proof refuge for rescue and evacuation on each platform
 - Upgrades to the public restroom

Anticipated Construction Impacts

- Work at platform level to be performed during the day behind safety fences
- Deliveries and removal of debris during overnight hours
- Minimal anticipated impacts to the Red Line
- Construction team will plan to:
 - Reduce and mitigate noise and traffic impacts
 - Relocate a bus stop
 - Pedestrian detours as needed
 - Maintain access to local businesses

WSP Central Square Station

Next Steps

- Construction Notice to Proceed: Spring 2024
- Projected Project Completion: mid-2026
